ARTERIORS DEBUTS BETH WEBB COLLECTION

Designer Beth Webb has spent years honing her sensory-driven approach to creating beautifully layered spaces. In her debut collection for Arteriors, Beth conjures a vision of quiet elegance, infusing serene tones, texture and tactility into versatile materials like rattan, carved wood and matte ceramic. With an eye for beauty and travel, her designs allude to diverse influences including Japanese earthenwares, Ethiopian string jars and ancient Roman glassware, making each piece refined and flexible enough to live in an urban loft, alpine lodge or tropical villa.
