The new age of luxury

A TIME OF AUTHENTICITY, PERSONALITY AND HERITAGE

BEYOND THE ORDINARY

BARBARA SALLICK, CO-FOUNDER OF WATERWORKS, PRESENTS BATHROOMS THAT SURPRISE AND ENCHANT

“ Though it isn't an old adage, it should be: you can't keep a good floor down. Indeed, this one seems to spring up effortlessly and dominate its surroundings. What I appreciate is that the designer was entirely willing to let it be the story, in all of its French country glamour, with no competition from the room's other elements. A pleasure to behold. ”

Design by Summer Thornton for a project in Florida, USA

“ I admire this bathroom's purity of intention and flawlessness of execution. The story is the view, and nothing detracts from it. The designer entirely avoids the decorative and the curvilinear; the sink and its surroundings reflect the shape of the window with forceful precision, and the material replicates the colour and texture of tree bark. Not too little, not too much: not so easy to pull off, oh so sublime when it succeeds. ”

Design by Beth Webb Interiors. Architecture by Summerour Architects

Design by Summer Thornton with architecture by Joan Craig, Craig & Company

“ The cranes on the walls of this bathroom seem like they might have flown in the window from the nearby seashore. And pairing that wallpaper with a highly active marble takes nerve. Yet there is a rigour to this design, epitomised by the suave, simple mirror and geometric brass inlay on the floor, that keep it all under control. ”
