The 36 Best New Design Books to Buy in 2025

You'll want to add these recent releases to your cart ASAP.

BY [SARAH DIMARCO](#) PUBLISHED: AUG 8, 2025

Few joys compare to adding a new **book to your collection**—especially if that book is brimming with **gorgeous home decorating ideas** and **bountiful garden inspiration**. It's the perfect tool to expand your knowledge of architecture and **interior design** while providing tips and tricks that you can bring into your own home and outdoor space. This year's new design books bring fresh perspectives on decorating with their dazzling imagery and poetic prose.

Many rising stars in the interior design industry are making their literary debuts—such as the powerhouse duo behind **Studio DB** and the oh-so-stylish **Caroline Gidiere**—with books that detail the unique vision behind their work. Plus, some of the world's most celebrated garden designers are revealing their secrets for cultivating a verdant paradise and showing how you can bring the delights of your garden into your home.

Plus, industry veterans like **David Kleinberg** and **Marshall Watson** return with brilliant monographs filled with never-before-seen projects and photography.

Here, we curated our list of the best new design books of 2025. While some come out later in the year, you can still pre-order them now as a wonderful treat to your future self. Happy reading!
